ANGELOMARIA CAPOCCIA, Guessing Game

I claim to be able to perceive the presence of a person in a room just picking up his/her "deseae-waves" with my hand, without the needs of any of the 5 sense that normal people use, in less than 4 minutes.

The protocol should be the following:

I will be put in a room at least 4 meters wide, with my eyes patched. The room should be free of noise to keep concentration. I will stand with my back facing a wall and on the opposite wall, at a distance between 3 and 5 meters, the examiner will, or will not, place (at discretion of examiner) a person. After having done that the examiner will ask me to tell him if the person is in the room or not and he will leave me a maximum of 4 minutes to answer him. To minimize disturbance, beside the person to find, only the examiner could stay in the room with me at least 2 meters far from me with his back facing the same wall were I am.

The test should give at least 90% of exact answers over 50%.

-Angelomaria Capoccia

Application ACCEPTED

Dear Angelomaria,

Thank you for submitting a properly executed JREF Paranormal Challenge application and claim letter. Your application has been accepted.

The next step in the process is for you to make direct contact with Massimo Polidoro, our associate in Italy. His email address is polidoro@*****.

I have already emailed him, so he is expecting to hear from you soon.

Mr. Polidoro is most qualified to handle your claim, and to finalize with test protocol, in Italian, which seems to be the best way to expedite matters.

I look forward to seeing your claim tested at the earliest possible convenience. Good Luck!

KRAMER,
JREF Paranormal Challenge Desk

Update

Massimo Polidoro has responded positively to the JREF's request for him to become involved with this claim. Massimo tells us that Angelomaria is a man's name (we were wondering), and that he looks forward to hearing from him.

KRAMER,
JREF Paranormal Challenge Desk
