District of Minnesota**

Christopher Roller  
(Plaintiff)

vs.

United States  
(Defendant)

Civil Action No. 07-1296 (JRT/FLN)

Memo in Opposition to Motion to  
Dismiss

Memo in Opposition to Motion to Dismiss

ARGUMENTS

I agree with the dismissal of the patent infringement claim, but United States did not acknowledge my attempted murder claim. In particular, I allege George bush initiated an wide-spread assault by the military to kill me. Also, I allege that in the 72-hour stay at the VA, during a caging that occurred on 1May2007, the VA was trying to kill me - many times. I will try to press the claim with a motion for summary judgment. These attempts on my life have to stop.

CONCLUSION

For reasons stated above, I oppose the motion to dismiss. The claim for trying to kill me has not been acknowledged/denied yet.

Respectfully submitted,
