

**United States District Court
District of Minnesota**

Christopher Roller

(Plaintiff)

vs.

State of Minnesota

(Defendant)

Civil Action No. 07-1296

Complaint Supplemental

Complaint Supplemental

Just recently, I went to the Burnsville Police Department to try to report alleged crimes against me. I tried to show them the recent proof of the James Randi case and "fess up" phenomenon (can't lie to me), and the proof of attempts on my life. They chose to ignore it, and instead throw me into the loony bin (commitment), further costing me money and my faith in truth and justice. I believe the officers involved (officer Beverly Price) in this were trying to socially crucify me or conspiring to kill me.

The following are allegations. I need to see statements in the reply that deny the allegations listed, otherwise it's true.

1. All employees of the State of Minnesota have godly powers.
2. Employees of the State of Minnesota exercise magic commands to accomplish their job, infringing on Chris Roller's patent.
3. State of Minnesota has contractors that exercise magic commands to accomplish their job, infringing on Chris Roller's patent.
4. Redwood Falls, MN Police Station - Derek Woodford - tried to kill me in 2004.

5. Redwood Falls, MN Police Station - I believe officers there have conspired to cover up crimes committed against Chris Roller.
6. Burnsville, MN Police Station - I believe officers (i.e. Beverly Price) have conspired to try to kill Chris Roller.
7. Burnsville, MN Police Station - I believe officers (Beverly Price) have conspired to cover up crimes committed against Chris Roller.
8. On 1 May 2007, Beverly Price conspired to try to cover-up crimes committed on Chris Roller by committing him.
9. I was in Greg Stockmann's office on 20Apr2007, and I believe someone tried to kill me from behind.
10. Judge George Harrelson exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest. Also, he dismissed a harassment order I attempted to protect my son, Dillon. The dismissal resulted in my moving from Redwood Falls to get away from the offenders, ultimately being separated from my kids for 3 years now. Maybe I can do him the same favor if he committed/conspired any felonies against Chris Roller. I will need to see statements denying this allegation, otherwise it's Bubba Time.
11. Judge Rex Stacey exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest. He also ridiculed me say for saying I was God the Almighty. Ha!
12. Judge Marilyn Kaman exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest.

CONCLUSION

I'm suing State of Minnesota for patent infringement, in accordance with U.S.C 35 § 271. I want past royalties, amount to be determined, based on the missing statements in the reply concerning allegations listed above.
