

**United States District Court  
District of Minnesota**

Christopher Roller

(Plaintiff)

vs.

United States

(Defendant)

Civil Action No. 07-1296

Complaint Supplemental

Complaint Supplemental

I believe, recently, in retaliation for case 07-cv-1675, that George Bush and Dick Cheney authorized a hit on me, Chris Roller. I understand this can be done in the name of national security. In the name of oxymoron, I would love to see how I'm insecure to the nation, as I only promise truth and justice to the nation. The following are allegations intermixed with some humor. I need to see statements in the reply that deny the allegations listed, otherwise it's true.

1. All employees in the Federal Government have godly powers and are infringing on Chris Roller's "Godly Powers" patent.
2. Employees in the Federal Government issue magical commands to accomplish their work and thus are infringing on Chris Roller's "Godly Powers" patent.
3. Federal Government has contractors who issue magical commands for their work and thus are infringing on Chris Roller's "Godly Powers" patent.
4. At least one member of US Army has conspired to kill Chris Roller.
5. At least one member of US Navy has conspired to kill Chris Roller.
6. At least one member of US Air Force has conspired to kill Chris Roller.
7. At least one member of US Marines have conspired to kill Chris Roller.

8. At least one member of FBI has conspired to kill Chris Roller.
9. At least one member of CIA has conspired to kill Chris Roller.
10. At least one member of US Secret Service has conspired to kill Chris Roller.
11. At least one member of the US Secret Service, and Bill Clinton, conspired to kill Vince Foster.
12. At least one member of US Coast Guard has conspired to kill Chris Roller.
13. At least one member of US National Guard has conspired to kill Chris Roller.
14. At least one member of Veterans Administration has conspired to kill Chris Roller.
15. George Bush / Dick Cheney and fellow demons conspired a hit while I was at Red Lobster on 16Apr2007. I believe someone put a huge bomb underneath the joint (or something of a big hit). It didn't go off, but instead, created the Virginia Tech shooting back-lash side-effect.
16. George Bush / Dick Cheney and fellow demons knew the VT back-lash would occur, but we're aiming the energy to my alma-mater, University of Florida.
17. George Bush / Dick Cheney and fellow demons conspired of the hit on Chris Roller, and conspired the back-lash "real" side-effect on a school.
18. George Bush offers his condolences of VT on television even though he's full of crap.
19. George Bush / Dick Cheney and fellow demons are now responsible for the VT deaths and really wish to become Bubbatized.
20. All judges believe Chris Roller is the ultimate judge.
21. Judge Franklin Noel exercised magic commands prior to 1Jan2007 and has

no business judging Chris Roller's cases because of a conflict of interest.

And has no business ridiculing me for queries about James Randi's godly powers (who's got them) and thus staying discovery.

22. Judge John Tunheim exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest. And has no business determining if David Copperfield is a fraud.

23. Judge Arthur Boylan exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest. And has no business dismissing discrimination case 05-1420, giving no incentive for people to take Chris Roller seriously when he alleges assassination attempts, because we are now finding out under oath, that James Randi tried to kill Chris the day of the Red Lake shooting.

24. Judge Karen Schreier exercised magic commands prior to 1Jan2007 and has no business judging Chris Roller's cases because of a conflict of interest.

25. Judges use godly powers to submit documentation, issue judgments, and/or cast will-power on subjects.

26. Judges cannot believe they've got to give a portion of their paycheck to Chris Roller.

27. Judges cannot believe Chris Roller is their new boss.

28. Judges cannot believe this is actually happening.

29. Aaaaaaaahhhhhhhhhhh!

30. US Marshall Kelly conspired to kill Chris Roller.

31. Judges could really give a crap about Chris Roller's financial status and the fact that he can't see his kids.

32. It would appear that Chris Roller's cases have all been a sham.

33. It would appear the judicial system is a complete sham.
34. It would appear that all/most judicial cases in existence are all based on fraud and will have to be retried.
35. Washington D.C. and Libby has got nothing compared to the scandal going on in the Midwest.
36. Federal case now costs \$350 instead of \$250. Appeal case costs \$455 instead of \$255. These adjustment of costs were done to hinder Chris Roller from launching any more law suits.

## CONCLUSION

I'm suing United States for patent infringement, in accordance with U.S.C 35 § 271. I want past royalties amount to be determined based on the missing statements in the reply to this complaint.
